EVERSOL®-1520

Phenolic Liquid Antioxidant for Manufacturing, Processing and Long-Term Thermal Stabilization

**Chemical Name** 4,6-bis(octylthiomethyl)-o-cresol

**Formula** \( C_{25}H_{44}OS_2 \)

**Structure**

![Structure of EVERNOX®-1520](image)

**Molecular Weight** 424.7 g/mol

**CAS Number** 110553-27-0

**Specification**

<table>
<thead>
<tr>
<th>Criterion</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Appearance</td>
<td>low viscosity pale yellow liquid</td>
</tr>
<tr>
<td>Clarity of solution</td>
<td>Clear</td>
</tr>
<tr>
<td>Transmittance</td>
<td>at 425 nm : 97.0% min</td>
</tr>
<tr>
<td>Transmission after NaOMe</td>
<td>at 425 nm : 95.0% min</td>
</tr>
<tr>
<td>Assay</td>
<td>96.0% min</td>
</tr>
</tbody>
</table>

**Physical Properties**

- Melting range (°C) ~ 14
- Flash point (°C) > 200
- Density (20°C) 0.98 g/cm³
- Vapor Pressure (25°C) 2 E-5 Pa
- Solubility / miscibility (20°C) % w/w
  - Acetone >50
  - Chloroform >50
  - Ethanol >50
  - Ethyl acetate >50
  - n-Hexane >50
  - Methanol >50
  - Methylene chloride >50
  - Toluene >50
  - Water <0.01
**Applications**

EVERNOX-1520 is a multifunctional liquid phenolic antioxidant with highly effective stabilization for organic materials such as elastomers, plastics, adhesives sealants, oils and lubricants. It protects these materials against thermo-oxidative degradation. It can be applied for emulsion and solution polymerized elastomers such as BR, SBR, NBR, SBS, and others.

EVERNOX-1520 is effective both as a raw elastomer and compound stabilizer. It also effectively protects various adhesive, sealant, and latex applications. It is non-discoloring, non-staining, low in volatility, and stable to light and heat. It is not recommended for odor sensitive hot melt adhesives or their raw materials.

EVERNOX-1520 can be used alone at low levels without co-stabilizers to provide both processing and long-terms heat aging stability. If needed, it also can be used with other additives such as secondary antioxidants, benzofuranone, light stabilizers, and other functional stabilizers. The effectiveness of this product used in a wide range of elastomers is exceptional along with extensive food contact approvals.

**Handling & Safety**

EVERNOX-1520 should be handled with care and prevent contamination of the environment.

For more detailed information please refer to the material safety data sheet.

**Packing**

The following packages are available upon customer’s request:

1. 25-kg plastic container.
2. 200-kg iron drum.
3. Other specific request.

**Transportation**

EVERNOX-1520 is not dangerous materials according to the transportation regulations.

**Storage**

EVERNOX-1520 should be stored under suitable conditions (dry & cool).
